

Microcide S®

**SUPER CONCENTRATED DISINFECTANT
FOR ALL ANIMAL FARMS**

DESCRIPTION:

Microcide S® is a heavy duty formulated Disinfectant with a combination of a surfactant, biocides and organic acids.

Microcide S® quickly eliminates all the disease causing viruses, bacteria and fungi normally present in the animal sheds as a part of farm's biosecurity measures.

COMPOSITION:

Poly Alkyl Monohydric Phenols	40% w/w
Dodecyl Benzene Sulphonic Acid	24% w/w
Metacresol Base	5% w/w
	q.s.

USES:

For regular disinfection of poultry and other animal sheds, hospital premises, equipments, etc. Effective against all families of Bacterial, Virus, Fungi, Yeasts and Moulds.

METHOD OF APPLICATION:

- Dissolve 2.5 ml. of Microcide S® in 1 Ltr. of water (200 ml. in 80 Ltrs.)
- Spray 80 Ltrs of this diluted solution for every 2500 Sq.ft. surface area which includes surfaces of floor, walls, pillars, nettings, roof so as to wet them well.
- Allow the solution to remain in contact for 30 minutes.

MODE OF ACTION :

Coagulates and denatures proteins. Interferes with DNA and RNA synthesis. Penetrates cell walls causing lysis. Leakage and cell disorientation.
